Fredrick Sutandy
UI/UX Designer, Front-end Developer, System Analyst

A dedicated developer and designer with over 3 years of experience in frontend development and UI/UX design. Proficient in creating user-centric digital products that enhance convenience and brand credibility. My background in these roles has uniquely prepared me for my current position as a Team Leader, where I aim to continue learning and growing, while adding value to both myself and the company. As I am continuously curious and strive for improvement, I remain dedicated to becoming a better developer myself.

Experience

Transcosmos Indonesia
Feb, 2023 - Present
